Dear Sirs,I purchased XM Radio because I am an over-the-road truck driver, driving in all 48 states. I subscribe to XM service because of its nation wide broadcasting coverage. When XM began their up-to-the-minute traffic/weather I was thrilled for obvious reasons. When I am heading to NYC or Boston or any other major city I tune in to find out if there are any traffic delays I need to know about so I can make an early decision to detour around a specific area, allowing my deliveries to be ontime. If I'm on time, my deliveries are on time, the customers happy, the companys happy, and I'm happy.

I believe if a consumer is paying for a service they should receive it. Whether its a trailer full of cookies or a traffic report.

Please reject the NAB's petition 04-160. It's just not right.

Sincerely,

Grace Piscitelli
